

COURSE AT A GLANCE

Gamification & Immersive Learning

A hands-on teacher training that leaves something behind

The promise

Teachers stop hearing about gamification and start building it. In this training every teacher leaves with one real, playable lesson of their own, ready to teach the next week, and it works for every learner, including the most demanding.

What teachers do

They take one of their own lessons and rebuild it: they design it fast with a little AI, bring it alive with game design (Delightex, AR and VR), and make it inclusive with a simple method so nobody is left out. They leave with the finished lesson, a reusable way of working, and the confidence to keep going.

Why this one

- Proven. Born as a course for international teachers in Amsterdam through Erasmus+, rebuilt for 2026.
 - Practical. Everyone makes something real. No coding or gaming background needed.
 - Inclusive. A genuine specialism: game-based learning that works for special-needs and mixed-ability groups, not just the keen kids.
 - Led by someone who has done it. Kevin Storm has over twenty years designing curriculum and teaching hands-on to every kind of group, from stop-motion with multiple-disability learners to game design in mainstream secondary schools, and international teacher training through Erasmus+.
-

How it is delivered

- Live, two days, at your school or event, anywhere in the world.
 - Online, four half-days, for teams on different sites.
 - Self-paced, a complete download teachers can run themselves.
 - Also as standalone half-day modules: AI in Education, Game Design with Delightex, or Inclusive Gamification.
-

What it costs (indicative)

- Live delivery, per group: 2,400 to 3,600 euro.
- Erasmus+ seat, per participant: 320 to 400 euro.
- Self-paced download: 149 euro individual, 549 euro school licence.

- Standalone module: 59 euro individual, 249 euro school licence.

Funded easily through Erasmus+ KA1, a school's own professionalisation budget, or cultuureducatie and basisvaardigheden funds where they apply.

Let's talk

Tell me your group, your goal and your dates, and I will propose a fit.
