

CURRICULUM VITAE

Kevin Storm

Educator, curriculum designer and Dutch-language expert

Profile

Native Dutch teacher and curriculum designer with more than twenty years in education, most of it in special education. I design curriculum and learning material, train teachers, and build small learning tools with AI. I give precise, rubric-based feedback for a living, and I write and reason clearly in Dutch and English. Comfortable working remotely, async, to deadlines.

Core strengths

- Native Dutch (nl-NL), professional written and spoken; monthly published columnist.
 - Fluent English; delivers international teacher training in English.
 - Curriculum and instructional design; assessment and rubric design.
 - Special-needs and inclusive education; plain-language communication.
 - AI in education: prompt design, building small tools, evaluating AI output.
 - Creative media: game design, digital design, drawing, music.
-

Experience

- Freelance educator and curriculum designer, StormStudio (2014 to now). Design lesson material, learning lines and teacher trainings; built and now sell an international course on gamification, AI and immersive learning; deliver train-the-trainer. Clients include Facet (Emmen), Bibliotheek regio Oost-Achterhoek, Kaliber (Enschede) and TETEM (Enschede).
 - Special-education teacher (approx. eight years). Qualified teacher in special primary education, working with learners who need a different way in.
 - Columnist (ongoing), Uitgeverij de Inzet. Monthly published column.
 - Touring musician (ongoing). A working second career; the reason remote and async suit me.
-

Education and qualifications

- Qualified teacher, special primary education (bevoegd docent speciaal basisonderwijs).
-

Languages

- Dutch: native. English: fluent (professional and teaching level).

Practical

- Remote, async, flexible hours. Based in Enter, the Netherlands.
