

GUMROAD

Gumroad Upload Kit

Everything to paste in: products, tiers, copy, files, covers

How to use this kit

Everything you need to set up the StormStudio store on Gumroad is here: your profile text, six products with paste-ready titles and descriptions, the price tiers, which files to upload to each, and which cover image to use. When you say go, we upload it all. Nothing here needs rewriting; copy and paste.

KEY POINT

Order of operations on Gumroad: set the Profile first, then create products top to bottom, upload the matching cover and files, set the versions/prices, and turn each one from Unpublished to Published last.

Files you will upload (from the package)

English PDFs live in [product/pdf/](#), Dutch in [product-nl/pdf/](#). Covers are in [gumroad/covers/](#). Each buyer gets both languages in the download, so the product serves the Dutch home market and the international market at once.

Your Gumroad profile

- Seller / studio name: StormStudio
 - Display name: Kevin Storm, StormStudio
 - Profile handle (URL): [stormstudio](#) (so [stormstudio.gumroad.com](#))
 - Profile tagline (one line):
 - > Creative, new-media learning that reaches every child. Courses in gamification,
 - > AI and game design, by teacher and teacher-trainer Kevin Storm.
 - Short bio (profile "About", ~60 words):
 - > I'm Kevin Storm: teacher, curriculum developer and international teacher-trainer,
 - > and a touring musician. For over a decade I've built creative, new-media learning
 - > for schools across the Netherlands and beyond, with a home in special education.
 - > These are my ready-to-run courses in gamification, AI and immersive game design,
 - > so any teacher or team can pick them up and go.
 - Links to add: [kevinstorm.eu](#) · [linkedin.com/in/stormkevin](#)
 - Profile category: Education
 - Payout: confirm your bank/PayPal is set (you already have the account).
 - Note on VAT: Gumroad is Merchant of Record, it collects and remits EU VAT for you, so quote prices as you want them to appear; Gumroad adds tax at checkout.
-

Price ladder (what to set)

Product	Individual	School / team	Provider / reseller
Complete course	€149	€549	€1,200
Mini-course (each)	€59	€249	€600
Full Bundle	€199	€749	€1,500
The 6 Levers (free)	€0 (or pay-what-you-want, min €0)	n/a	n/a

On Gumroad, put the tiers in as Versions inside each product (each version can have its own price and, if you want, its own file). Keep the same files across versions; the licence difference is the usage right, stated in the description.

PRODUCT 1 · Gamification & Immersive Learning: Complete Course

- Cover: [covers/01-complete-course.png](#)
- Permalink: [gamification-course](#)
- Versions & price: Individual €149 · School / team licence €549 · Provider / reseller licence €1,200
- Summary (the subtitle field):
 - > The complete, download-ready two-day teacher-training course. Teachers leave with
 - > one real, playable lesson, that works for every learner.
- Description (paste):
 - > Stop hearing about gamification and start building it. This is the complete,
 - > ready-to-run version of the two-day course Kevin Storm delivered to international
 - > teachers in Amsterdam, rebuilt for 2026 with AI and immersive learning.
 - >
 - > In two days (live, online, or self-paced) every teacher builds one real,
 - > playable lesson of their own that they can teach next week, and that works
 - > for every learner, including the ones who usually check out.
 - >
 - > What's inside (54 pages, English + Dutch):
 - > • Facilitator / trainer manual, run it, block by block
 - > • Slide deck for the two days
 - > • Participant workbook with worksheets and assignments
 - > • Step-by-step tutorials (incl. Delightex) and a full source list
 - > • The three mini-courses' material folded in: AI, game design, inclusion

- > • Prospectus with everything mapped to Erasmus+ learning outcomes
- >
- > Who it's for: schools and boards running a study day; Erasmus+ providers;
- > cultuureducatie and PD organisations; individual teachers and trainers.
- >
- > Licences: Individual = one teacher. School / team = your whole team may use
- > the materials. Provider / reseller = run it under your own brand (co-branded).
- >
- > Delivered in English and Dutch. Built and taught by Kevin Storm, kevinstorm.eu
- Files to upload:
 - StormStudio-Gamification-Complete-Package.pdf,
 - StormStudio-Gamification-Compleet-Pakket-NL.pdf,
 - plus the component PDFs (00-04, S1-S3) EN + NL for convenience.
- Tags: gamification, teacher training, education, AI in education, game-based learning, professional development, Erasmus+, special education
- Receipt / "after purchase" message:
 - > Thank you! You now have the complete course in English and Dutch. Start with the
 - > Prospectus, then the Facilitator manual. Running it for a team or want it live?
 - > Reply to this email or write to kevinstorm1980@gmail.com.

PRODUCT 2 · AI in Education: Mini-Course

- Cover: [covers/02-ai-in-education.png](#)
- Permalink: [ai-in-education](#)
- Versions & price: Individual €59 · School / team €249 · Provider €600
- Summary:
 - > Practical AI for teachers, plan, differentiate and produce material in minutes,
 - > plus how to teach AI literacy honestly.
- Description (paste):
 - > Go from "AI makes me nervous" to "AI saves me an hour a day." A short, practical,
 - > standalone course for any teacher, any subject. Use AI to plan lessons,
 - > differentiate and make materials fast, and teach your students to use it wisely.
 - >
 - > You'll get: a reusable prompting method, ready-to-use classroom examples, an
 - > AI-literacy mini-lesson for students, and a simple, fair AI-use policy you can
 - > adopt tomorrow. English + Dutch. Fits inside a single teacher's PD budget.

>

> Part of the Gamification & Immersive Learning suite by Kevin Storm, kevinstorm.eu

- Files: [S1-ai-in-education.pdf](#), [S1-ai-in-het-onderwijs.pdf](#), plus the free [lead-magnet-6-levers.pdf](#) as a bonus.
- Tags: AI in education, teacher training, prompting, digital literacy, education

PRODUCT 3 · Game Design with Delightex: Mini-Course

- Cover: [covers/03-game-design-delightex.png](#)
- Permalink: [game-design-delightex](#)
- Versions & price: Individual €59 · School / team €249 · Provider €600
- Summary:
 - > Run a full game-creation project with your class using Delightex: build 3D worlds,
 - > code them with CoBlocks, step inside in AR/VR.
- Description (paste):
 - > ****Teach your students to build games, and learn coding, storytelling and design while they do it.**** A hands-on, standalone course built around Delightex Edu
 - > (formerly CoSpaces Edu): 3D worlds, CoBlocks visual coding, and AR/VR your school
 - > can actually run.
 - >
 - > You'll get: the Delightex design approach (start from one verb, build the
 - > smallest fun world, iterate), a classroom project with a brief and rubric, a
 - > step-by-step build tutorial, and links to the Delightex resources. English + Dutch.
 - >
 - > Part of the Gamification & Immersive Learning suite by Kevin Storm, kevinstorm.eu
- Files: [S2-game-design-delightex.pdf](#), [S2-gamedesign-met-delightex.pdf](#).
- Tags: game design, Delightex, CoSpaces, AR VR education, coding, education

PRODUCT 4 · Inclusive Gamification: Mini-Course

- Cover: [covers/04-inclusive-gamification.png](#)
- Permalink: [inclusive-gamification](#)
- Versions & price: Individual €59 · School / team €249 · Provider €600
- Summary:
 - > Design game-based learning that works for special-needs and mixed-ability groups,
 - > nobody left out.

- Description (paste):
 - > Game-based learning that includes the learners who are usually left out. Built
 - > on years of real special-education practice, this standalone course gives you six
 - > inclusion moves for any game: adjustable challenge, non-verbal success, choice as
 - > self-regulation, sensory control, collaboration over competition, and predictable
 - > structure.
 - >
 - > You'll get: the six moves with real examples, an inclusion redesign worksheet,
 - > a take-away checklist for every game-based lesson, and creative-media ideas
 - > (stop-motion, photography) as inclusive mechanics. English + Dutch.
 - >
 - > Rare, and genuinely Kevin's signature. Part of the suite, kevinstorm.eu
 - Files: [S3-inclusive-gamification.pdf](#), [S3-inclusieve-gamification.pdf](#).
 - Tags: inclusion, special education, UDL, gamification, differentiation, education
-

PRODUCT 5 · Full Immersive Educator Bundle

- Cover: [covers/05-bundle.png](#)
 - Permalink: [immersive-educator-bundle](#)
 - Versions & price: Individual €199 · School / team €749 · Provider €1,500
 - Summary:
 - > Everything: the complete two-day course plus all three mini-courses (AI, game
 - > design, inclusion). Best value.
 - Description (paste):
 - > The whole toolkit, one price. The complete two-day Gamification & Immersive
 - > Learning course plus all three standalone mini-courses, AI in Education, Game
 - > Design with Delightex, and Inclusive Gamification. Everything you need to run
 - > modern, playable, inclusive learning and to train a team to keep it going.
 - >
 - > English + Dutch throughout. The best-value way in. By Kevin Storm, kevinstorm.eu
 - Files: all customer PDFs, EN + NL (the two merged packages + every component + the three mini-courses + the free lead magnet).
 - Tags: gamification, teacher training, AI in education, game design, inclusion, bundle, education
-

PRODUCT 6 · The 6 Levers of Engagement (FREE lead magnet)

- Cover: [covers/06-six-levers-free.png](#)
- Permalink: [six-levers](#)
- Price: €0, set "pay what you want" with a €0 minimum and a suggested €5, so it stays free but can tip.
- Summary:
 - > A free one-page field guide: gamify any lesson with the six levers of engagement, without the gimmicks.
- Description (paste):
 - > Free. The six levers that make any lesson pull the room in, clear goals, fast feedback, visible progression, right-sized challenge, choice, and meaning, plus a 10-minute lesson upgrade and one AI prompt to try. One page, English + Dutch.
 - >
 - > Like it? The full course is at kevinstorm.eu/curriculum. By Kevin Storm.
- Files: [lead-magnet-6-levers.pdf](#), [lead-magnet-6-hefbomen.pdf](#).
- Tags: free, gamification, teaching tips, lesson design, education
- Why free: this collects email addresses (Gumroad captures buyer emails, even at €0). That list is the engine for every future sale, see the sells playbook.

Cross-selling (set after products exist)

- On each mini-course, tick Gumroad's "recommend other products" and point to the Complete course and the Bundle.
- On the free 6 Levers, recommend the AI mini-course (the easiest first sale) and the Complete course.
- In the Complete course, recommend a live delivery enquiry (link to email).

Discounts to create (optional)

- [LAUNCH25](#), 25% off, first 2 weeks, all paid products (urgency for the launch).
- [SCHOOL](#), a code you hand to schools buying the team licence.
- [ERASMUS](#), for provider/reseller conversations.

Post-purchase email (Gumroad "Content > Email")

- > Subject: Your course is ready, and here's where to start

>

> Thanks for getting [product]. Two tips: start with the Prospectus (the map), then

> the Facilitator manual. Everything is in English and Dutch. If you'd like to run

> this with a whole team, or have me deliver it live, just reply., Kevin, kevinstorm.eu

Go-live checklist

1. Profile set (name, handle, bio, links, category, payout).
2. Six products created, each with its cover, files, versions/prices, tags.
3. Cross-sell recommendations set; free product = pay-what-you-want €0.
4. One test purchase on the free product to confirm the flow and email capture.
5. Publish all six. Put the store link on kevinstorm.eu/curriculum and in the

Gmail signature.

NOTE

When you're ready, say the word and I'll walk it in with you field by field, or draft any extra copy (a launch post, the LinkedIn announcement, a school-facing one-liner).
